

VOICEBRIDGE-1 - VoiceBridge Bluetooth

new

Safe and clear communication despite protective screens, acrylic glass panels, splash guards and hygiene walls

Since the COVID-19 pandemic outbreak, screens made of safety glass or acrylic glass equally protect staff, patients and customers.

The VOICEBRIDGE-1 ensures clear and intelligible communication at checkouts, information desks, etc. despite safety distance, hygiene walls and face masks.

The VOICEBRIDGE-1 is a safe, hygienic and flexible solution which is particularly suitable for acrylic walls and acrylic cubicles at pharmacies, practices, shops and supermarkets as well as for visitor boxes in retirement homes. Thus, facilitating consultation and communication.

The VOICEBRIDGE-1 kit consists of:

- 1 x microphone station for customers
- 1 x on-ear headset for staff
- 1 x power supply
- Incl. double-sided adhesive tape

The VOICEBRIDGE-1 can very easily be integrated into your environment and workflows:

- Non-contact: infrared sensors detect if a person is standing in front of the device
- Retrofitting: no integration into existing systems or networks required
- Hygiene: device can easily be cleaned with a surface cleaner

- POS: ideally suited for highly frequented areas
- No extensive staff training required

Technical data:

Description	: intercom system
Nominal value	: activation/deactivation via infrared
Type	: microphones: AEC technology (Acoustic Echo Cancellation/echo compensation) and NR technology (Noise Reduction/suppression of ambient noise)
Colour	: white
Material	: plastic
Suitable for	: hygiene walls
Power supply	: via encl. power supply
Admiss. ambient temp.	: 0-40 °C
Dimensions	: 86 x 111 x 18 mm (microphone station)
Length	: -
Mounting dimensions	: -
Weight	: 160 g (microphone station)
Connections	: -
Other features	: -
Packing unit	: 1
Packing dimensions (W x H x L)	: 0.31 x 0.06 x 0.19 m
Gross weight	: 0.58 kg
Net weight	: 0.32 kg
